**Evaluated Competencies**

**#1 Professionalism**

**Educational Objectives:** Consistently place the needs of the patient first and acts as advocate for child and their family.

**Method of Evaluation:** Direct observation

**#2 Patient Care**

**Educational Objectives:** Obtain and document a patient\'s history in a logical organized and thorough manner. Perform a complete physical examination on children of different age with different acute and chronic conditions. Initiate patient orders, understand the rationale for each order and interpret results of initial lab results. Formulate a comprehensive problem list and differentiate the diagnosis based on the presenting complaint, history and physical exam. Generate thoughtful assessment and plan.

**Method of Evaluation:** Review of oral and written presentations. Direct observation of history taking and physical examination skills.

**#3 Medical Knowledge**

**Educational Objectives:** Apply pediatric principles to patient care including common pediatric problems and emergencies encountered on the inpatient service.

**Method of Evaluation:** Presentation of patient care issues to the team.

**#4 Practice-Based Learning**

**Educational Objectives:** Apply an evidence based approach to the care of children admitted to the hospital.

**Method of Evaluation:** Review of presentations on rounds. Discussions of patient care.
**Educational Objectives:** Establish rapport with children and families as the primary care giver on team. Effectively communicate with the team of health care professionals. Consistently demonstrate respect, reliability, helpfulness and initiative while a member of the health care team.

**Method of Evaluation:** 360-degree evaluations by patients, staff, housestaff and faculty.

#6 Systems-Based Practice

**Educational Objectives:** Understand the risks, benefits and costs of diagnostic and therapeutics in individual patient. Coordinate with the team discharge planning.

**Method of Evaluation:** Review of charts & performance on rounds.
